

Guide is just another point of information to get us on the same page. When I see the small coincidence of right action and joy around me on the bus and on the street, I get such a smile and a laugh and realize I am in the right place at the right time.

That this book, and the story within its' chapters, are from intense passions released in the never dull moments of driving a ten ton vehicle on overhead wires in San Francisco. The life of a trolley operator contains so much challenge I don't ever need look elsewhere to stay on my toes. Thank You for Reading! Thank You for Riding!
